

VAYASA SOLUTIONS

Complete Services Portfolio

Website Content Reference | Detailed Service Architecture

One Technology Partner. From Infrastructure to Intelligence.

VAYASA Solutions brings together audio-visual systems, IT infrastructure, ELV and security, automation, cloud, cybersecurity, healthcare technology, and custom software to deliver complete technology environments through a single integrated approach.

Rooted in Legacy, Driving the Future

Recommended Services Architecture

The website should position VAYASA Solutions as an integrated technology solutions and system integration company, with the following core service categories.

1. Audio Visual & Collaboration Solutions

Connected Spaces. Seamless Collaboration.

2. Smart Education & Digital Learning

Transforming Classrooms into Connected Learning Environments.

3. ELV, Security & Surveillance Solutions

Integrated Security. Complete Visibility. Safer Infrastructure.

4. Networking & IT Infrastructure

Building the Digital Backbone of Modern Organizations.

5. Automation & Intelligent Systems

Making Infrastructure Smarter, Connected and Automated.

6. Application & Software Development

Software Built Around Your Business.

7. AI, Business Process Automation & Digital Transformation

From Manual Processes to Intelligent Operations.

8. Cybersecurity Solutions

Protecting Users, Data, Networks and Digital Operations.

9. Cloud & Data Centre Solutions

Modern Infrastructure for a Cloud-Connected Enterprise.

10. Healthcare & Smart Hospital Solutions

Technology That Connects the Entire Hospital.

11. Managed IT Services & Support

Reliable Technology. Continuous Support.

12. Project Management, PMO & Technology Consulting

Structured Governance from Requirement to Handover.

1. Audio Visual & Collaboration Solutions

Connected Spaces. Seamless Collaboration.

VAYASA Solutions designs and implements professional audio-visual and collaboration environments that help organizations communicate, present, train, and collaborate more effectively.

Solutions & Capabilities

- Video Conferencing Solutions
- Microsoft Teams Rooms (MTR)
- Zoom Rooms
- Corporate Boardrooms & Meeting Rooms
- Conference Room Automation
- Auditoriums & Training Rooms
- Active LED Video Walls
- Digital Signage & Information Displays
- Professional Audio Systems
- Wireless Presentation & BYOM
- Room Booking & Scheduling Systems
- Control Systems & AV Automation
- Acoustic Solutions
- Command & Control Centres

2. Smart Education & Digital Learning

Transforming Classrooms into Connected Learning Environments.

We help educational institutions modernize classrooms, laboratories, training centres, and campuses through integrated digital learning technologies.

Solutions & Capabilities

- Interactive Flat Panels
- Smart Classrooms
- Digital Classrooms
- Learning Management Systems (LMS)
- Language Labs
- Lecture Capture Systems
- Hybrid Learning Solutions
- Virtual Classroom Platforms
- Digital Libraries
- Campus Digital Signage
- Computer & Training Labs
- Auditorium AV
- Campus Networking & Wi-Fi
- Education ERP Integration

3. ELV, Security & Surveillance Solutions

Integrated Security. Complete Visibility. Safer Infrastructure.

VAYASA Solutions designs, supplies, installs, integrates, and supports comprehensive ELV and electronic security systems for corporate, government, education, healthcare, industrial, and commercial environments.

Solutions & Capabilities

- IP & Analog CCTV Surveillance
- AI-Based Video Analytics
- Network Video Recorders (NVR)
- Video Management Systems (VMS)
- Command & Surveillance Centres
- Biometric Access Control
- Face Recognition Systems
- Door Access Control
- Visitor Management Systems
- Fire Alarm & Detection Systems
- Public Address Systems
- Intrusion Detection Systems
- Boom Barriers
- ANPR & Vehicle Management
- Intercom Systems
- Building Management System Integration
- Structured ELV Cabling
- Centralized Security Monitoring

4. Networking & IT Infrastructure

Building the Digital Backbone of Modern Organizations.

We design and deploy secure, scalable IT infrastructure that supports business-critical applications, users, devices, facilities, and connected environments.

Solutions & Capabilities

- Structured Cabling
- Enterprise LAN & WAN
- Core & Distribution Switching
- Enterprise Wi-Fi
- SD-WAN
- Network Security
- Server & Storage Solutions
- Data Centre Infrastructure
- Server Rooms
- Racks, UPS & Power Management
- Virtualization
- Backup & Disaster Recovery
- Network Monitoring
- IT Hardware Deployment
- AMC & Managed IT Support

5. Automation & Intelligent Systems

Making Infrastructure Smarter, Connected and Automated.

VAYASA Solutions integrates automation, IoT, sensors, software, and control technologies to help organizations reduce manual intervention, improve visibility, and operate more efficiently.

Solutions & Capabilities

- Meeting Room Automation
- Boardroom Automation
- AV Control Systems
- Lighting Automation
- Smart Building Integration
- IoT-Based Monitoring
- Energy Monitoring Systems
- Environmental Monitoring
- Occupancy & Space Monitoring
- Smart Facility Management
- Centralized Control Dashboards
- Sensor-Based Automation
- Asset Tracking
- Predictive Alerts
- Remote Monitoring Systems
- Custom Workflow Automation

6. Application & Software Development

Software Built Around Your Business.

VAYASA Solutions designs and develops custom applications that digitize operations, automate workflows, improve customer engagement, and provide organizations with greater visibility and control.

Solutions & Capabilities

- Learning Management Systems (LMS)
- Human Resource Management Systems (HRMS)
- Customer Relationship Management (CRM)
- Enterprise Resource Planning (ERP)
- Inventory Management Systems
- Asset Management Systems
- Visitor Management Applications
- Helpdesk & Ticketing Systems
- Vendor Management Systems
- Project Management Platforms
- Document Management Systems
- School & College Management Systems
- Hospital Management Applications
- Facility Management Platforms
- Field Service Management Applications
- Sales & Lead Management Systems
- Workflow & Approval Applications
- Web Application Development
- Mobile App Development
- SaaS Product Development
- Enterprise Portals
- Customer & Employee Portals
- API Development & Integration
- Legacy Application Modernization
- Cloud-Native Applications
- Database Design & Development
- Third-Party System Integration
- UI/UX Design
- Application Maintenance & Support

7. AI, Business Process Automation & Digital Transformation

From Manual Processes to Intelligent Operations.

We help organizations digitize workflows, connect systems, automate repetitive work, and use AI-enabled tools and dashboards to improve speed, visibility, and decision-making.

Solutions & Capabilities

- Business Process Automation
- AI-Powered Assistants & Chatbots
- Document Workflow Automation
- Approval Process Automation
- CRM Automation
- Sales Process Automation
- Customer Support Automation
- Data Extraction & Processing
- Management Dashboards
- Business Intelligence
- API & Platform Integration
- Low-Code / No-Code Solutions
- Legacy Process Digitization
- Digital Transformation Consulting

8. Cybersecurity Solutions

Protecting Users, Data, Networks and Digital Operations.

VAYASA Solutions helps organizations strengthen security across endpoints, networks, cloud environments, applications, and business data through layered cybersecurity solutions.

Solutions & Capabilities

- Endpoint Protection
- Endpoint Detection & Response (EDR)
- Data Loss Prevention (DLP)
- Enterprise Firewalls
- Zero Trust Network Access (ZTNA)
- Email Security
- Cloud Security
- Vulnerability Assessment & Penetration Testing
- SIEM & SOC Services
- Security Audits
- Identity & Access Management
- Backup & Ransomware Protection
- Cybersecurity Consulting

9. Cloud & Data Centre Solutions

Modern Infrastructure for a Cloud-Connected Enterprise.

We support organizations in assessing, migrating, modernizing, protecting, and managing infrastructure across cloud, hybrid, and data centre environments.

Solutions & Capabilities

- Cloud Readiness Assessment
- Cloud Migration
- Microsoft Azure Solutions
- AWS Solutions
- Hybrid Cloud
- Infrastructure as a Service
- Cloud Backup
- Disaster Recovery
- Virtualization
- Data Centre Modernization
- Cloud Security
- Managed Cloud Services
- Infrastructure Monitoring
- Cost Optimization

10. Healthcare & Smart Hospital Solutions

Technology That Connects the Entire Hospital.

VAYASA Solutions designs and integrates technology environments that help hospitals improve clinical coordination, operational visibility, communication, security, and patient experience.

Solutions & Capabilities

- Hospital Command & Control Centres
- ICU & Critical Care Monitoring
- Operation Theatre AV & Live Surgery
- Telemedicine & Virtual Consultation
- Medical Training & Clinical Collaboration
- Digital Patient Experience
- Hospital Security & ELV Systems
- RFID, RTLS & Asset Tracking
- Smart Visitor & Access Management
- Hospital Networking & IT Infrastructure
- Smart Facility & Building Automation
- Healthcare Applications & Digital Platforms
- Hospital Cybersecurity

11. Managed IT Services & Support

Reliable Technology. Continuous Support.

We provide lifecycle support for IT, AV, security, and infrastructure environments to help organizations improve availability, performance, and operational continuity.

Solutions & Capabilities

- Annual Maintenance Contracts
- Managed IT Support
- Remote Infrastructure Monitoring
- Network Management
- Server Management
- Endpoint Management
- AV System Maintenance
- CCTV & Security System AMC
- Preventive Maintenance
- On-Site Technical Support
- Helpdesk Services
- Vendor Coordination
- IT Asset Management

12. Project Management, PMO & Technology Consulting

Structured Governance from Requirement to Handover.

VAYASA Solutions supports complex technology programs with planning, governance, coordination, commercial control, risk management, and implementation oversight.

Solutions & Capabilities

- PMO as a Service
- Technology Consulting
- Project Planning & Governance
- Solution Architecture Coordination
- BOQ & Technical Specification Development
- RFP / RFQ Support
- Vendor Evaluation
- Project Risk Management
- RAID Management
- Budget & Cost Governance
- Multi-Vendor Coordination
- Implementation Management
- Testing & Handover Governance

Recommended Website Mega-Menu

For a cleaner website experience, group the services into four clear pillars.

Workplace & Experience	Infrastructure & Security	Software & Intelligence	Consulting & Managed Services
Audio Visual & Collaboration Smart Education & Digital Learning Healthcare & Smart Hospital Solutions	ELV, Security & Surveillance Networking & IT Infrastructure Cybersecurity Cloud & Data Centre	Application & Software Development AI & Business Process Automation Automation & Intelligent Systems	Managed IT Services & Support Project Management & PMO Technology Consulting

Recommended Services Page Headline

One Technology Partner. From Infrastructure to Intelligence.

Recommended Introductory Copy

VAYASA Solutions brings together audio-visual systems, IT infrastructure, security, automation, cloud, cybersecurity, and custom software to deliver complete technology environments from a single partner.
